Professional Summary

Strategic technology leader with 14+ years of hands-on experience architecting cloud-native, high-availability distributed systems. Expert in Java, Spring Boot, Spring Cloud, Node.js, React, Kubernetes, and Terraform. Proven track record of reducing infrastructure costs by 40%, cutting deployment times by 60%, and achieving 99.95% system uptime through modernization initiatives. Adept at mentoring engineering teams, driving microservices migrations, and delivering enterprise-scale solutions across banking, insurance, and manufacturing domains.

99.95%
System uptime via cloud transformation

Experience

Senior Architect
Persistent Systems

April 2022 – Present

Leading cloud-native modernization and event-driven architecture initiatives for enterprise clients. Designing high-availability microservices on AWS/Azure with Docker and Kubernetes. Driving domain-driven design adoption and establishing CI/CD best practices with Jenkins and Terraform.

System Analyst
IBM Pvt. Ltd.

March 2020 – April 2022

Delivered Barclays Bank's Total Customer View (TCV) platform using Java 8, Spring Boot, Oracle, and Docker. Improved transaction throughput, performed code reviews, static/security analysis (SonarQube, Veracode), and mentored newly hired engineers.

Senior Software Engineer
Larsen & Toubro Infotech Ltd.

Dec 2017 – March 2020

Developed middleware using Spring Boot, Apache MQ, and XSLT for Principal Global Services. Led a team of 5 on BCA-Order-Handler, migrating from WESB to Apache Camel. Built notification processing and insurance domain applications across all SDLC phases.

Software Engineer
NCS Pvt. Ltd.

July 2012 – Dec 2017

Led a team of 4 on the Johnson Controls IRIS ERP/supplier integration platform using Spring Boot, Spring Cloud, Docker, and Azure. Delivered Travelers Premium Pipeline (Java, JPA, Hibernate, Oracle 12c) for a 15-member team. Handled architecture design, code reviews, and KT for offshore teams.

Education & Certifications

B.E. in Electronics & Communication

Rajiv Gandhi Technical University, Bhopal

2008 – 2012

Professional Certifications

- AWS Cloud Practitioner
- IBM Garage Method for Cloud Advocate
- Docker Essentials: A Developer Introduction
- IBM Cloud Kubernetes Service

Core Technical Stack

BACKEND

- Java
- Spring Boot
- Spring Cloud
- Spring MVC
- Spring Batch
- Hibernate / JPA
- Node.js

FRONTEND & PRESENTATION

- React
- AngularJS
- JSP

ARCHITECTURE

- Microservices
- Event-Driven Architecture
- Domain-Driven Design
- RESTful APIs

CLOUD & DEVOPS

- AWS
- Azure
- Docker
- Kubernetes
- OpenShift
- Jenkins
- Terraform

DATABASES

- Oracle
- MySQL
- MS SQL Server
- Azure Storage (NoSQL)

TESTING & BUILD

- JUnit
- Mockito
- SonarQube
- Veracode
- Maven
- Gradle

AI & AGENTIC TOOLS

- GitHub Copilot
- Microsoft Copilot
- OpenAI Codex
- Google Gemini

TOOLS & COLLABORATION

- Git
- Bitbucket
- JIRA
- Confluence
- ServiceNow
- IntelliJ IDEA
